

Dhirajlal Gandhi College of Technology

Department of Electrical and Electronics Engineering

Industry Sponsored Laboratory

LED Luminaries Fabrication and Testing

Objectives:

- Understand the LED fabrication and testing methods
- Use advance tools for fabrication and testing
- To facilitate research and research based knowledge sharing
- Design and Development of LED drivers.
- Undertake industrial research projects for LED luminaries

Industry Spencer Amount: Rs.71,190.00

List of Activities:

- Conduct Value Added Programs and Workshops for budding engineers.
- Guest lecturers for enriching students with latest updates.
- Technical seminar on new research areas.
- Student assistantship for Entrepreneur.
