

Event Report on “A talk on Successful Women Engineers”

Aditi – Women Development Club, DGCT organized the AICTE-SPICES sponsored programme “A talk on Successful Women Engineers” by female students of DGCT, Salem, on 17th November 2021 between 3.00 pm and 5.00 pm in DGCT Auditorium.

Female students of DGCT gave a presentation on the life history of famous Indian Women Engineers like Rajeshwari Chatterjee - First woman engineer from Karnataka, Kalpana Chawla - Aeronautical engineer -First Indian woman who went into space, Lalitha -India’s first woman Electrical Engineer. They discussed hurdles faced by women in various engineering fields and about their hard work and focused approach which led them to success.

Our college Secretary Mrs. Archana Manojkumar, Master of computer engineering shared her own experience during her college days and in Industries.

Dr. N. Thillaikarasi, Coordinator, AICTE-SPICES programme and Aditi-Women Development Club, DGCT told the students that success doesn’t perceive gender but only demands dedication and hard work.

The interaction between the students and the faculty members made the event a very successful one.

No. of Participants: 350
