Department of Civil Engineering

The objective of the CIVIL department is to foster the students to cultivate academic integrity with professional and social responsibility to meet the exponentially growing requirement of practical engineers in the country and abroad. The department has highly qualified, experienced and dedicated faculty members who have a strong commitment towards providing quality engineering education with high emphasis of civil engineering aspects and to bring out quality research experience to the students in order to help them excel in current competitive scenario. The mission of the department is to impart quality education to the students, an education that includes the skills of innovation, problem solving, consensus-building and those of entrepreneurship, so that they meet the challenging requirements of the global market with competence in ethical and moral reasoning.

Vision

To provide excellent education to meet the growing demands of industry, research and consultancy in all disciplines of Civil Engineering by developing a conducive teaching-learning environment and to improve the quality and social standards of human life.

Mission

- To produce competent Civil Engineers who can tackle the tasks of Civil Engineering which include multiple responsibilities of analysis, design, construction of traditional and modern structures, water resources, transport, urban planning & remote sensing, green and eco friendly concepts in construction industry.
- To establish center of excellence to enhance research with latest soft techniques tools.
- To impart education to meet the demands of changing global needs with value added programs.
